

BASKETBALL BACKBOARD

MODEL #LA-12X 12 GAUGE STEEL RECTANGLE, WHITE (170 LBS)
(Steel board powder coated white after fabrication)

GENERAL:

Always use the goal ring holes to secure the backboard to the mounting plate.

1. Align countersunk holes with holes on mounting plate and attach with 3/8" x 2" flat head bolt.
NOTE: The flathead bolt will seat in the countersunk hole on the face of the backboard.

Caution: Flat washers must be used behind the plate when mounting the backboard.

- NOTE:** The Rim and Backboard are to be mounted securely to the sleeve adapter (GNP). Attach the sleeve to the Post and secure with set screws and drive pin.
2. Align the Rim with holes on the Backboard and mounting plate and attach with 3/8" x 3-1/2" Hex Head bolts, Flat Washers and Nylock Nuts.
 3. Attach Assembled Rim/Backboard/Sleeve to Gooseneck Post.
 4. For **Adjustable Offset Goals**, attach the Rim and Backboard with requested hardware to the adjustable offset. Use the other half clamp and attach the assembly to the bottom of the post. Once all the hardware is snug, slide the assembly up the post to the desired height.
 5. Use a 7/32" hex key wrench to hold the flathead bolt and secure with 3/8" flat washers and nuts.
 6. Align the goal ring with the other four holes on the mounting plate and secure with hardware provided.
 7. Adjust the backboard to square and tighten all bolts. This backboard is equipped with a welded angle on the back for diagonal brace installation.

WARRANTY PERIOD: Limited lifetime Warranty.

*Diagonal Brace Installation: Diagonal brace installation varies depending on which upright post is ordered. Plumb the backboard and goal ring true and level (shim if necessary). Tighten all hardware securely. Install net. If the goal ring is equipped with chain net, make sure all S-hooks are fully closed.
